The Windows of the Marquis Sacchetti's Palace Shattered.

Another Shell Discovered Just in Time to Avert an Explosion.

Vatican Officers the Apparent Targets of the Unknown Dynamiters.

ROME, March 21.—Two more bomb explosions occurred in this city last night, the second and third in less than a week, the first having occurred on Friday last at the Altieri Palace, the residence of the Marquis Sacchetti, the United States Minister. The first of last night's outrages was perpetrated at the Marquis's Palace and resulted only in many broken windows. In the palace and neighboring buildings. Later an explosion occurred at the residence of the Marquis Sacchetti, Grand Marshal of the Papal Court, and has caused a feeling of great anxiety in Vatican circles, in view of the fact that the efforts of the dynamiters seem in a measure to be directed against the attacks of the Pope's court. The bomb had been placed within the entrance of the residence, and the noise of the explosion was heard for a great distance. Fortunately the only material damage done was the smashing of many windows of the palace, though the walls in some places bore traces of the explosion. This attack caused the police to be more than usually vigilant, and during the night another bomb was found on the staircase of a house in the Via del Quattro Fontane. A lighted fuse was attached to this bomb, and it was discovered just in time to prevent an explosion that in all probability would have resulted disastrously to the building and its occupants.

MAY STRIKE TO-DAY. A STR IN YONKERS.

Clothing Cutters Are Likely to Forestall the Lockout.

Manufacturers Say the Latter Is Sure to Come.

When Secretary White, of Clothing-Cutters' Union No. 4, was asked this morning if there would be any strikes during the day by the clothing-cutters, he intimated that there would be several late this afternoon. "We have found out from the foremen in several factories," said Mr. White, "that half a dozen leading members of the Manufacturers' Association have refused to distribute among their men copies of the lockout order posted by the Manufacturers' Association last Saturday night."

This is as good as to say that these members of the Manufacturers' Association will not comply with the resolution that they can fill the places of 800 cutters without trouble. Now, can they do this, when it has taken Senheim, Levinson & Co. a week to find eight men to take the place of twelve who were laid off by their factory?

Mr. Mendelsohn, of Banner Iron factory, said today that the lockout would take place next Saturday if the cutters did not decide to strike. He said that he had no objection to the cutters striking, but that he would not employ them if they did.

The Manufacturers' claim that they have no objection to the cutters striking, but that they would not employ them if they did.

The cutters claim that they will have the co-operation of ten tailors, several of whom are in the city, and that they will bring out several thousand men when a strike or lockout occurs.

CHOOSING BUCHANAN'S JURY.

Five Talesmen Selected to Try the Accused Physician.

Large Crowd of Court Frequenters Thronging the Court-Room.

That peculiar human barometer of public interest, the habitual court-room sifter, gives evidence by his watchful attention and constant attendance in Part III. of the court of General Session, that a topic of most absorbing interest in New York is the trial of Dr. Robert W. Buchanan, charged with killing his wife, Anna B. Buchanan, by administering to her a dose of morphine poison while pretending to treat her medicinally.

The couple have not been living together since last Summer. Allen is now boarding at 231 West Forty-fourth street, New York. He is about forty years of age, and has the place at Tuckahoe. His wife is an attractive blonde of about thirty.

The hearing was conducted with closed doors. Mrs. Allen was accompanied by her lawyer, ex-City Attorney Joseph Daly, while Mr. Allen had Counselor John F. Bennett to look after his interests.

Justice Donohue, before explaining the reporters from the hearing, said that he did this because there was a prospect of the case being amicably settled.

This morning Judge Donohue, who was employed by Allen to look after his place at Tuckahoe, before Mr. Allen had served a summons on Allen in an action brought against him by Duhaime to recover the value of the house and of effects, including valuable paintings and bric-a-brac.

It is said that Mrs. Allen had been watching her husband's movements since last Summer, and that she has been in the city since then.

The result of the hearing was a surprise. Judge Donohue ordered Allen to file a bond for \$1,000 to support his claim, and to pay the costs of the hearing.

Then followed a lively tilt between the two attorneys, who were finally decided in Judge Donohue's court.

IT SHOOK UP FIVE TOWNS.

Fire and Terrific Explosion at a Litchfield, Ill., Flour Mill.

One Person Killed, Many Injured—Property Loss Over \$1,000,000.

LITCHFIELD, Ill., March 21.—At 2.30 o'clock this morning fire was discovered in the big Keeler flouring mill in this place, and, despite the efforts of the employees, it quickly spread throughout the building.

While employees and firemen were fighting the flames a terrific explosion caused by flour dust occurred, and the immense structure was blown to fragments.

The explosion wrecked nearly every business house in the village. Many persons were badly hurt by flying bricks and falling timbers.

The damage to the mill alone will reach \$1,000,000, and other property was damaged over \$100,000.

The shock was felt in the neighboring village of Clinton, Ill., and many of the houses were so great that plate glass windows were broken.

When the fire started the citizens were awakened by the ringing of fire-bells, and they rushed to the scene, many of them were half-stunned by the shock of the explosion. The next moment they found the walls of the mill falling upon the fire.
